

December 12, 2019

Mr. Bryan Hammer and PALA Board  
President  
Pulu Amsic Lot-Owners Association, Inc  
Barangay Amsic, Angeles City

Dear Mr Hammer:

Greetings!

This is in reference with our rehabilitation project on your Pulu Amsic Subdivision. We would like to inform you that the on-going restoration process of the damage concrete pavement is based on proper specification and standards. The original thickness of 4" and high density of concrete mixture has been properly implemented and restored. Rest assured that all works to be done is in accordance with proper specification and standards and we will take full responsibility of whatever damage that will occur in the future and will do our best to meet your technical standard on the above mentioned project.

Note: Attached herewith are pictures of the rehabilitation projects.

Thank you very much.

Very truly yours,
